Bluestone Line Surveying (fictional)
office@bluestone.example
Valid until November 26, 2026

Scope of work

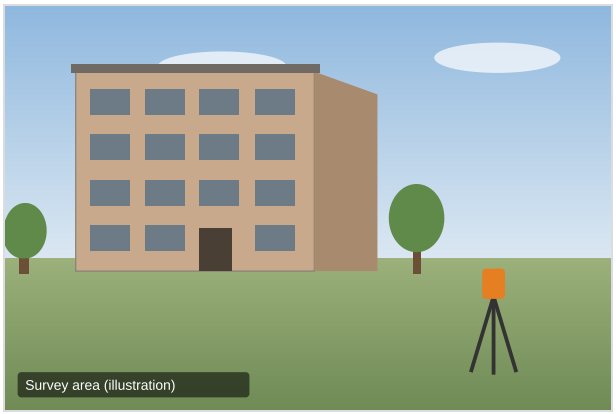

Laser scan the two-story office building and its parking lot, register the scans to site control, and prepare as-built floor plans and exterior elevations for the planned renovation.

Areas to be surveyed

- Building A, floors 1 and 2 (about 18,000 sq ft)
- Building exterior, all four sides
- North parking lot and entrance drive

Planned scan coverage

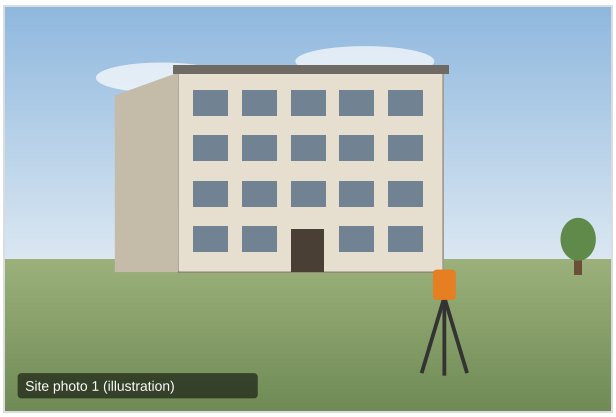

Building A, floors 1 and 2 (about 18,000 sq ft)

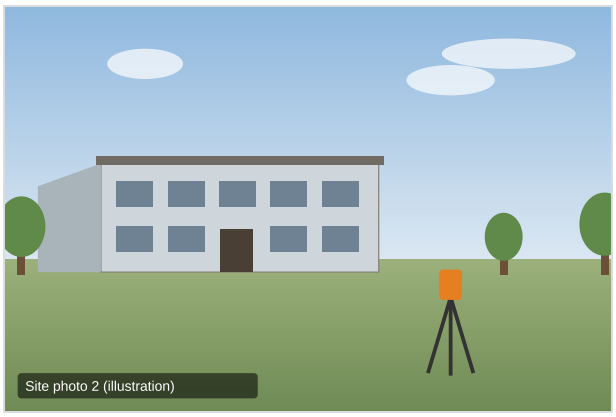

Equipment

- Terrestrial laser scanner with color imaging
- GNSS receiver for site control
- Total station for control checks
- Registration and drafting software

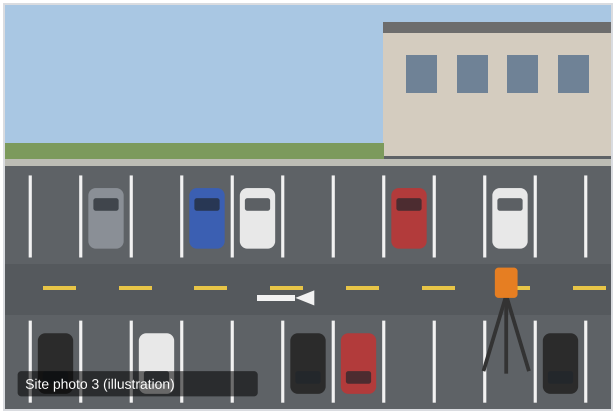

Site photos

South entrance

East side

North parking lot

Floor 1 lobby

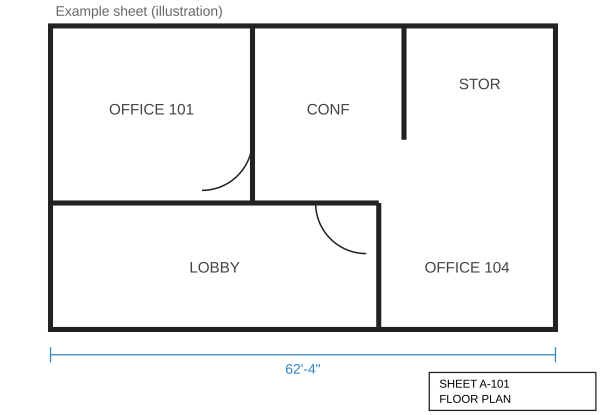

Deliverables

- Registered point cloud (E57 and RCP)
- As-built floor plans, floors 1 and 2
- Exterior elevations, four sides
- Site control report

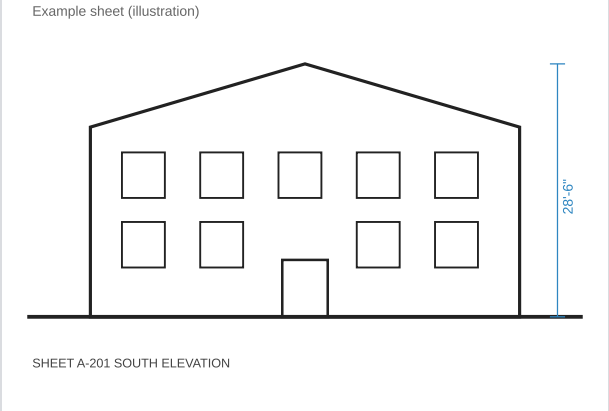

Plan sheets included

- A-101 Floor 1 plan
- A-102 Floor 2 plan
- A-201 South and North elevations
- A-202 East and West elevations

Deliverable examples

Floor plan sheet, example

Elevation sheet, example
